

6th Joint European Insolvency and Restructuring Congress in Brussels, 29 & 30 June 2017

Deutscher Anwaltverein
**Arbeitsgemeinschaft
Insolvenzrecht & Sanierung**

The German Bar Association's (**DAV**) Section on Insolvency Law and Restructuring and **INSOL Europe** are pleased to announce the 6th European Insolvency Law and Restructuring Congress (**EIRC**) in Brussels from 29 to 30 June 2017.

This is the sixth conference of its kind and the fourth one hosted by two European organizations for insolvency professionals. The success of the past EIRCs jointly organized with Dutch, French and Spanish partners has encouraged the organizers to share this format each time with another European peer organization.

The EIRC offers again a unique forum for insolvency and restructuring experts to discuss issues concerning national and cross border insolvency and restructuring proceedings, this time in the light of the new draft directive of pre-insolvency restructuring and Brexit.

We have developed a program including high-profile speakers such as *Ms. Vera Jourová* (European Commissioner for Justice, Consumer Protection and Gender Equality) and *Günther Oettinger* (Commissioner for Budget and Human Resources, Brussels). The Draft Regulation will be presented by *Dr. Andreas Stein* (Head of Unit, European Commission, DG Justice), now in charge of this project and commented on by a panel of distinguished experts. The speakers and the audience will discuss hot topics such as the impact of the new draft regulation on non-performing loans, banks and the whole industry of restructuring and insolvency professionals.

With the new European Insolvency Regulation entering into force in July 2017, another focus lies on the topic of secondary proceedings. Here, a dedicated workshop will show the chances and risks of virtual secondary proceedings under the recast EIR for practitioners. The Friday sessions will focus on recent ECJ decisions and other landmark judgements that every professional doing cross-border work needs to know and will round up with an outlook on how restructuring will be influenced by Brexit.

The EIRC will enable delegates to get in direct touch with and to be heard by European lawmakers and to learn about the latest developments from experts involved in the reforms and landmark cases having significant impact on the future of our profession.
